is rich in coal, iron, timber, potter's clay, etc., and the most inviting field in Kentucky for investment of capital and pluck.

VOL. XV, NO. 6

GREENVILLE, KY., THURSDAY, MARCH 20, 1913.

50c. PER YEAR, IN ADVANCE

ROCKY ROAD FOR BOY

Country Lad Has Easier Time Than City Youth.

Where There Is Chance for Education and Good Home Is Provided, Youngster From Rural Districts Has Big Advantage.

Do not ever believe, you boys of the country, that the city boy has all of the good times going. In many ways he has a rocky road to travel. One of the big men of the Chicago university, who makes a study of the condition of boys in the cities, says the country boy, if he has the chance of an education and lives in a good home, has a deal better time than the fat-broed, steam-heated city boy.

The city boy has no opportunity to bring in the wood, milk the cows, gather nuts or go out into the woods, and so has no part in the home work.

The city is mean to him. He seldom puts his foot on the ground because it is all covered up with stones and cement.

He has no neighbors, for people move every year, and sometimes of ten, so what's the use of getting acquainted. There are no real homes in flats—not like the homes of the

Pals at Feeding Time.

country, where people live in one place for years and grow up with their relatives and neighbors around them and where the ties of friendship are strong and satisfying.

If the city boy lets out a yell or plays ball in the streets or swipes an apple, the police are down on him in a moment.

The country boy can whoop, whistle and sing as much as he pleases and if occasionally he strays into a neighbor's orchard and comes out in a fit of absentmindedness with a melon under his arm, or a dozen apples inside his shirt, he is not arrested! Generally he is invited to help himself and come again if the neighbor sees him.

In the city everybody is against the boy. The people upstairs complain to the janitor that he makes too much noise; he is not allowed to sit on the doorstep, and so he drifts into the crowds of bad boys around the corner, who are bad because they are not allowed to do things that every healthy, well-ordered boy wants to do.

Quack Grass.

As a usual thing, quack grass does not mature its seed in hay or in winter grain crops, since they are cut too early, but in hay that is left standing for seed and in spring grains it does become mature and is carried from field to field or from farm to farm by the threshing machine, in manure, in hay and straw or in seed grain or grass seed.

The first thing to do is to learn to know quack grass seed and then refuse absolutely to use any grain for seed that contains it. As soon as the fall work is well out of the way get the fanning mill in working order and clean the seed grain so well that there is no weed seed of any kind in it. With oats and barley the work must be done particularly well, since quack seed resembles these to a certain extent, although it is much smaller. Buy your seed, grain and grass seed early and be absolutely sure that you get no quack seed in either.

Necessity for Testing Seed.

Good seed corn is the key to getting good stands of corn. A good stand of corn is necessary to secure good yields. Owing to the wet fall of 1911 there is now much doubtful seed corn in the country.

One cannot afford to plant corn any year, much less this year, without testing. The single-ear method of testing seed corn is the only practical method.

How to Kill Grasshoppers.

Since a live grasshopper will eat a dead grasshopper a Missouri farmer mixed Paris green and bran together and let a grasshopper eat it. It died, and 20 ate it up and they died; 400 ate those 20 and they died; 8,000 ate those 400 and they died; 160,000 ate those 8,000 and they died and the farmer was troubled no more!

CHECK RAVAGES OF INSECTS

Nighthawk Devours Many Mosquitoes and Feeds Exclusively on Bugs—Man's True Friend.

Mr. Treadwell of the Boston Society of Natural History reports that he fed a young robin sixty-eight angle or earthworms in one day. A young crow will eat twice its weight of cutworms a day. Think of what this means to the gardener, young or old! "Could we grow anything at all without the help of the birds?" exclaims a little boy-gardener to whom I told it.

In the crop of a nighthawk were found 500 mosquitoes. That bird did the duty of tencore screens! Think of the discomfort, to say nothing of the disease, he prevented!

In view of these facts one is almost willing to accept the statement of a well-known French scientist, who has asserted that without birds to

The Nighthawk.

check the ravages of insects human life would vanish from this planet in the space of nine years. But for the vegetation, the insects would perish; but for the insects, the birds would perish, and but for the birds vegetation would be destroyed. Nature has, therefore, formed a delicate balance of power which cannot be disturbed without bringing great loss and unhappiness to the world.—Home Progress Magazine.

PRUNING OF TREES PROPERLY

Importance Not Fully Appreciated by Many Until One Observes Unsightly Docking.

The importance of properly pruning the trees on our streets and about the home is not fully appreciated until one observes the unsightly docking practiced by some of our most meaning citizens, says the Farmers Guide. "As the twig is bent so the tree is inclined." This saying, familiar to all, might be recast to read: "As the twig is cut so the tree is inclined or given form." We mean to say by this that intelligent pruning may mold the tree into almost any desired form.

Even the despised Lombardy poplar, which, by the way, is a stately and beautiful tree when properly placed and cared for, can be so pruned as to produce a pleasing effect if taken in time and pruned each year.

The most common error is to neglect the pruning until the tree has become ill-shaped, and then to attempt by the drastic method of cutting off many large limbs or the entire trunk to give the symmetry and beauty desired. Such methods seldom bring the desired results, and generally leave the tree so badly maimed and disfigured that it is removed, either by man or by the destroying fungi which enter the tree where large pruning wounds have been made.

PRUNE THE DORMANT GRAPES

At Any Other Time Upward Flow of Sap Is So Strong That It Will Cause "Bleeding."

Grape vines, unlike many other vines, trees and shrubs, can be pruned without injury only when they are in a deep dormant condition. At any other time the upward flow of sap is so strong that it will flow out of the wound and cause what is called bleeding, which impairs the vitality of the plant.

The time to prune the grape vines is soon after they have dropped their leaves, and the whole plant becomes dormant, preferably with a falling temperature, before midwinter. If pruning is done while the leaves remain on some of the branches, and the weather is mild, sap is liable to flow the remaining branches and cause swelling of buds, which will be caught by the frost. The work must not be delayed till late winter or early spring, since the very first worm-spell will cause the sap to flow and the wounds to bleed.

In the northern and central latitudes from the middle of November till the last part of January is the best time for the work.

Cover Crops for Orchards.

In Michigan peach growers sow oats and barley. These have been sown lately, but now sand vetch is most popular. It makes a mammoth growth and adds considerable nitrogen to the soil. These crops act as a blanket to hold the leaves and snow, thus preventing deep freezing and root injury. In spring cover crops are turned under.

Inspecting Fruit for Storage.

Make a most thorough inspection of all fruit and vegetables before placing them in storage pits or cellars. The least abrasion of the skin on fruits will cause rot later on, and a speck of rot at this time will mean an entirely ruined product in midwinter, to say nothing of the other products it may contaminate and spoil.

POULTRY

HANDY IN A POULTRY YARD

Water Device, Shown in the Illustration, Works Automatically—How It Is Made.

The illustration given herewith shows a handy device for watering chickens, writes Richard Lee of Neosho Falls, Kan., in an exchange. Set an alight keg or barrel on a stand or box with a small pipe. A leading

Automatic Chicken Waterer.

from the bottom of the keg to the bottom of the trough, while another pipe B extends from below the upper level of the trough up into the head of the barrel. Fill the keg and cork up tightly, then remove cork from bottom of pipe A and the water will run into the trough until it rises high enough to shut the air off at the lower end of pipe B, when the water will stop running. When the water in the trough is lowered enough admit air into pipe B the water will again run from A.

RAT-PROOF CHICKEN ROOST

Ample Protection Afforded Against Predatory Animals by Device Suspended from Roof.

The accompanying illustration shows a convenient chicken roost which is proof against rats, minks and weasels. This roost is made of two pieces of plank four feet long, four inches broad and one inch thick; five pieces of plank three feet long, four inches broad and one inch thick; four pieces of wire about eight feet long.

Chicken Roost.

As shown in the illustration, the three-foot pieces are nailed crosswise to the four-foot pieces and a wire attached to all four corners. It is then suspended from the roof in the chicken house with the front end of the roost about sixteen inches from the floor while the back should be twenty-seven inches.

POULTRY NOTES

The caponing season is at an end.

Start the trap nests if you are keeping a record of your winter layers.

The battle with vermin is a never-ending one, because the lice never quit.

The early pullets are beginning to lay, but, as a general thing, eggs are very scarce.

The best remedy for sick fowls is the ax, but with proper precaution they won't get sick.

Two or three applications of kerosene to scaly legs makes as sure a remedy as can be found.

There are those who begin with scrubs, intending to keep purebreds later on, but they seldom do.

It is possible for the hens to lay when shedding their feathers, but not when growing the new crop.

Chaff about straw stacks makes good scratching litter and the sooner it is hauled up the better it will be.

If the poultry-house is overcrowded, kill off some of the older birds. Keep stocked up with young thrifty layers.

Those old hens may be valuable as "keep sakes" but the young and vigor ones will produce the most eggs.

Do give the later summer hatched chicks a chance to eat their meals without being run over by older birds.

Excited men and women make excited birds, and that has a bad effect on the egg-producing mechanism of the birds.

Sell all the old hens that you do not intend to winter. At this season they command a reasonably good price in market.

Get in your winter supplies and utensils—this includes the incubators and brooders, and what new stock you must purchase.

You may think you know a good deal about how to raise poultry, but the deeper you go into it the more surprises you will find.

ROAD IMPROVEMENT

BOOST FOR GOOD ROADS LAW

Much Interest Shown at Meeting Held at Bloomington, Ill.—Many Improvements Are Made.

When a little country town of 700 people raises \$4,200 to put in concrete pavement around the square. It is a sure sign that the good roads germ is active there. This is what the people of McLean, in McLean county, Ill., have done. Now they have had pavement the year around where before the mud was frequently so deep that it was unsafe for a man to get out of the buggy to tie his horse.

The good roads germ has been working in several places in McLean county. Just outside of McLean is a strip of macadamized road that is still in good condition after eight years of service. Leading southwest from Bloomington is a stretch of the finest country road in the state—asphalt-bound macadam. Out a little farther on the same road a mile or two of water bound macadam is being put in. Next year the plan is to lay a mile of concrete road. Nor does the effort stop with the attempt to get satisfactory hard roads. There are drained, well crowned, well dragged earth roads everywhere—roads that good care has made as perfect as an earth road can be.

These were some of the things that members of the Illinois Highway Improvement association and others saw on a hurried visit to McLean county November 30. They came on invitation of Eugene Funk, a member of the state highway commission, says the Prairie Farmer. They went away more determined than ever to carry the fight for improved roads to a successful finish.

In a talk at the evening meeting President Edgars of the Highway Improvement association stated that the association was not organized primarily in the interests of automobilists, but for the best interests of the state.

In a tract of Dekalb county, a road commissioner, said that his township has put in an average of two miles of macadam roads per year for the past seven years, at a cost of about \$4,000 a mile. This money was taken out of the regular road funds. This year a mile of concrete road was put in. Mr. Bradt believes that this will prove the coming material for hard roads, as macadam roads need repairing all too frequently.

State Highway Engineer Johnson stated that if two per cent. of the roads in Illinois were paved these hard roads would reach all cities of 2,000 or more inhabitants, with possibly one exception; would reach most of the cities of 2,000 or more; and would serve four-fifths of the through traffic needs of the state. He advocated using the automobile license fund to make a start on such a system.

C. S. Miller of Alexander county stated that the people in the southern end of the state want the state to build the main roads, this to be followed by county improvement of the other roads, with perhaps some help from the state. They also advocate the use of convict labor on the roads, and the abolishment of two-thirds of the present number of highway commissioners.

He was followed by Mr. Donovan of the Highway Commissioners association. He said that the commission does not wish to block all changes of the present laws, but they do want fair treatment. He stated that much more would be accomplished under the present system if the commissioners had more money.

There is probably no man in Illinois who knows more about the road question than Homer C. Tice, chairman of the legislative good roads committee. His committee has devoted much time to investigating the problem from every possible angle, and is preparing a very comprehensive report to back up the bill which it will introduce into the legislature. Some of the best information received by the committee was from the rural mail carriers of the state. Answers to the questions sent out by the committee were received from 2,660 carriers.

To Provide Good Roads. Every farmer and every automobilist in the country probably will be interested in knowing that the government, as the result of an appropriation of half a million dollars, the last session of congress, is about to co-operate with the several states to provide good roads.

Experiments are to be made in the way of constructing smooth and broad highways in each state, if the authorities of the state agree to expend double the amount of money the government will disburse.

On account of bad roads many farmers report they are unable to get their produce promptly to the market, with the result that they lose millions of dollars annually.

Something for Nothing. The man who despises a top-soil road because it is cheap is the same fellow who scorns fresh air because it is free.

OUT

They Go

CLEANING TIME

As filth flies before the broom, so do disease germs, effete and impure matter and foul humors in the blood fly before

ELECTRIC BRAND BITTERS

They can't stand against this matchless broom of the blood. Out they go, along with the troubles they cause, such as pimples, boils, sores, eczema, salt-rheum, malaria, rheumatism and kidney disorders. It makes a clean sweep. It cures quickly and cures to stay. It gives glorious health and vigor to the weak, sickly and run-down.

Very Serious
It is a very serious matter to ask for a cure and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S
BLACK-DRAUGHT
Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It does not irritate other medicines. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

SOLD IN TOWN

SHANNON, MERCER & CO.
DEPOY, KENTUCKY

We announce to our trade and the public that our stocks of goods in all departments are larger and better selected than ever in our history. We carry a varied line of

GENERAL MERCHANDISE
and
people. In Dry Goods, Clothing, Shoes, Hats, Etc., we offer large selections.

In Groceries, Hardware, Tinware, Farm Implements and such goods our stocks are especially strong.

In all departments prices will be found the lowest, and your visits will be highly appreciated.

Undertaking Department

We have just added an Undertaking Department to our business, and will carry a comprehensive line of Coffins, Caskets, Robes, Suits, Wrappers and Dresses. Also have a Hearses in service, on call anywhere. Orders in this line given promptly and careful attention any hour day or night.

Telephones: Store, No. 1. Night, No. 17 or No. 3.

DEPOY, KENTUCKY

Pains All Over!

"You are welcome," says Mrs. Nora Guffey, of Broken Arrow, Okla., "to use my letter in any way you want to, if it will induce some suffering woman to try Cardui. I had pains all over, and suffered with an abscess. Three physicians failed to relieve me. Since taking Cardui, I am in better health than ever before, and that means much to me, because I suffered many years with womanly troubles, of different kinds. What other treatments I tried, helped me for a few days only."

TAKE
CARDUI
The
Woman's Tonic

Don't wait until you are taken down sick before taking care of yourself. The small aches and pains, and other symptoms of womanly weakness and disease, always mean worse to follow, unless given quick treatment.

You would always keep Cardui handy, if you knew what quick and permanent relief it gives, where weakness and disease of the womanly system makes life seem hard to bear. Cardui has helped over a million women. Try it.

Write for Ladies' Advisory Dept., Chattanooga, Medicine Co., Chattanooga, Tenn., for Special Instructions, and 24-page book, "Home Treatment for Women," sent free. 134

VICTOR RECORDS AT
ROARK'S

This image shows a blank, aged, cream-colored page, likely an endpaper or flyleaf of a book. The paper has a slightly textured appearance with some minor creases and discoloration, characteristic of old paper. The left edge of the page shows the binding, with visible stitching or thread. The overall tone is a warm, off-white or light beige.

June 5, 1912.	W. G. CRAWFORD, Agt.

Local Mention.

Some business changes are being planned, it is rumored.

Lawyers are getting busy with matters for the April term of circuit court.

Mr. Arthur Howard was here from Martwick on business Tuesday.

Mr. C. C. Shannon, of Depoy, was here Monday on business matters.

See Curd & York, at Central City, for granite and marble work of all kinds.

Dr. Liggett Bailey was in Louisville on business a few days this week.

Mr. Chas. L. Babbitt, representing the Cincinnati Coffin Co., was here the latter part of the week calling on the trade.

The fruit all-killed scare has been started again, but it is greatly exaggerated, is a later and we hope better report.

Mr. Cam Howard has purchased from Miss Lena Arnold her home on Trowbridge avenue, and will soon occupy it.

If you want granite or marble work of any kind, see Curd & York, at Central City, for best work and lowest prices.

St Patrick's day passed off here very quietly; there was much wear-in' of the green, in observance of the day.

M. A. Oates has purchased Willis Heir, a registered stallion, and one of the best horses ever in the county. Service will be \$15. Telephone No. 19 1-2, Depoy.

There are several more very live prospective automobile purchasers here, and a stretch of good weather is all that is needed to close the deals.

Better begin practicing the automobile dodge. It will soon be necessary here, as cars will vie with horse drawn vehicles here before snow flies.

People who have new apparel are hoping Sunday will be a beautiful day, but those who will don old duds are not so particular, and won't be worried extremely if the day be bad.

Mr. Lewis Hamilton is here on a visit to his old home. He has been in Detroit for two years, and holds a responsible position with the Cadillac Motor Car Co. in the mechanical department.

Mr. N. F. Sweeney has purchased the interest of Mr. Geo. W. Morgan in the Ford automobile in public service here, operated by Mr. Birney Shutt, joint owner, who retains his interest, and will still be in charge of the car.

Snaating of the green was a popular pastime here Monday, as emblems were scarce, and some were in possession of many owners by night-fall. During the day nearly everyone had on something green, for a short time, anyway.

WANTED—Man to represent us in the rural districts of Kentucky; good salary for whole time or part time; party must furnish reference and be able to furnish bond. Address G. A. McGranahan, State Mangr., Lock Box 180, Lexington, Ky.

Several parties from hereabouts are planning to attend the spring meeting of the Kentucky Mining Institute, held May 16 and 17 at Lexington. An excellent program has been arranged, including 24 contests, covering all sorts of injuries and there are several valuable prizes offered in each.

The wind and rain last Thursday did considerable damage in town and over the county, roofs being ripped off, chimneys blown down, fences scattered, trees uprooted, etc. The damage from water was general, and amounted to a considerable sum.

Estray Notice.

Taken up as astray by Tom Fox living on what is known as "The Dutch Farm" about Dec. 1st 1912. Two red heifers about one year old and unmarked; valued at fifteen dollars each by L. Z. Kirkpatrick. Subscribed and sworn to before me by Tom Fox this the fourth day of March 1913.

J. H. Lovell, J. P. M. C.

"Bob White" is without doubt the best flour on earth.

Mr. J. L. Morgan has gone to Florida, where he will spend some time investigating conditions with a view to purchasing a farm.

Mr. H. T. Gratz, of Louisville, was here on a commercial visit Tuesday and yesterday.

Roark has the agency for the line of Sturgis "Superba" baby carriages, one of the most complete lines on the market. See them before you buy; made right, look fine, priced right.

To The Public.

We desire to announce to the public that our new mill is now in full operation, and we will at all times have on hand the very finest quality of flour, meal and feed. We are very anxious to do custom grinding for our friends, and can give them the very best flour and wheat that is to be had anywhere, in exchange for their corn and wheat.

HOME MILLING CO. (INC)

Take your beef hides to J. E. Coombs & Co. and get the cash.

Automobile livery is getting to be a fair part of the traffic again, as roads are getting in good shape once more.

When you get "Quail" meal you get the best that is to be had.

Mr. Otto A. Rother, of Louisville, will arrive here tomorrow, and remain until Monday.

Telephone No 5 and your laundry will be called for and delivered.

The work of the King road drag was made plain here last Thursday, as after the heavy rain that day the roads worked with the drag were in a few hours as good as ever, and did not get muddy at all.

Best one ever made—the Kirsch curtain rods; Roark has a large line.

Want Kindergarten Teacher.

An effort is being made by several mothers to secure a kindergarten teacher for a spring term here. It is hoped the matter may be successfully concluded, as there is plenty of need for such a school here, this being one of the most important systems of teaching.

Fire Discovered In Time.

The residence of Mrs. Lucy Tinsley was discovered to be on fire about 10.30 o'clock last Wednesday night, and prompt response of the fire department to the alarm held damage down to a small amount. The fire originated in the kitchen, from a cause unknown, and had gained considerable headway before the water was turned on the flames. A bucket brigade did effective work while the hose connections were being made, but for the fire department the building would undoubtedly have been destroyed. There was no insurance on the building. A dog which slept on an open porch was burned, refusing to leave his quarters.

Parcel Post Climbing Here.

Greenville has doubtless established a record in the parcel post department, as there were exactly 101 packages of this matter in the post office here last Monday morning. While hundreds of packages are handled weekly, this is the greatest number handled in one day.

Gets a Baby By Parcel Post

The most unique package that has been received here by mail came in on the early train St. Patrick's morning. It was a 4 pound baby, 24 inches long, and was sent to Dr. L. P. Moore by Mrs. L. Bernard, of New Orleans. The nationality appears to be Chinese, anyway it has some China in its makeup, and is receiving as much attention from the doctor as any patient he has had to some time. Dr. Moore and family recently spent two months in New Orleans, where the doctor was taking special work in Tulane University. He evidently made a favorable impression as to his abilities, and so the baby was sent him for treatment.

Chicken Poolers Make and Save Money.

It has been many a day since there was so much poultry in town as that brought in Tuesday by the poolers. Dozens of wagons, from all parts of the county, were loaded to the limit, the poolers bunching their offerings and using as few wagons as possible. Farmers are studying not only the selling of their products, but are paying close attention to the economic movement to the market, and what they can save in this way adds considerably to their profits. Formerly it would have required the use of at least four times as many teams and men as were used Tuesday.

Warning to Parcel Post Users.

Persons who use the Parcel Post are warned against enclosing written matter of any kind in packages. Postmasters are directed by the Department to examine all packages dispatched and received, and to report any infractions of this rule. There is a heavy fine for the offense.

Death of Mrs. I. Oser.

Mrs. Emma Oser, wife Mr. I. Oser, dry goods merchant of this city, died in Louisville last Friday at Norton Infirmary, where she had been for two months, suffering from Bright's disease. Burial was in the Jewish cemetery in Louisville. Her husband and a three-months' old baby survive. Mrs. Oser had lived here several years, and had many friends among our people.

A Freak Ear of Corn.

Mr. C. M. Shutt, near the depot, raised an ear of corn last season that is the most unique ever seen by anyone here. It has about one-third of the grains of brilliant red and the balance of pure white. There is no mixing of colors, each being strictly defined and apart. Hundreds of persons have inspected the odd ear, which is displayed in the window of Roark's store.

Good Observance of Ordinance.

There is a general and quick observance of the ordinance forbidding the use of pavements by skaters. It has been necessary to warn just a few children, who have some way gotten the impression that pavements in front of one's property may be so used, but when informed that no pavement can be used, there has been immediate compliance. Another ordinance is needed, to forbid the use of velocipedes, as the pavements should be dedicated to the use of pedestrians, and they should not be endangered or harassed by any sort of self-propelled wheel vehicles.

Your laundry business will be appreciated by Miss Lena Arnold. Packages called for and delivered.

Kentucky Mining Institute.

The Program Committee of the Kentucky Mining Institute, for the meeting to be held May 16th and 17th, has selected 24 events for the State Wide First Aid Contest to be held on May 16th at Lexington, in connection with the Spring meeting of the Kentucky Mining Institute, and the judges, on the day of the contest, will select five of the problems, and these five problems will be performed by each team participating in the contest, and the prizes will be awarded upon the work performed in the problems so selected.

A Visit to the Jail.

The editor, at the special invitation of Jailer York, made tour of the new jail and residence last week. The appearance and condition of everything indicated that extraordinary preparation had been made for the reception of guests, but Mr. York declared such was not the case, but that the spotless floors, walls and cells were in ordinary dress. While we do not profess to have varied and expert knowledge as to jails, the opinion is ventured that there is no safer or more sanitary institution of the kind anywhere than is our new building for the care of prisoners. The residence portion is convenient and elegant, in appointment having all the latest features of comfort, and Mrs. York manages that portion of the establishment even better than Mr. York does the part under his official care.

Mrs. J. W. Mayhugh is in Louisville, where she will probably submit to an operation for relief from kidney trouble.

Home of Mrs. Ella Stringfellow Burns.

The home of Mrs. Ella Stringfellow, near Carrollton, Ky., was destroyed by fire last Monday. Dr. N. C. McCown, who is well known here, married a daughter of Mrs. Stringfellow, and his young child was alone in the home with Mrs. Stringfellow, the mother and her sister being in Carrollton at the time. Little was saved from the house, and there was a considerable loss above the \$1,400 insurance.

New Automobile Agency.

Mr. Carlisle Kirkpatrick has secured the agency for the county for the Overland line of automobiles, and will soon have a demonstration car here. The Overland has made a great name for itself, and is now the second largest producing concern in the world, 40,000 cars being made this season. We hope Mr. Kirkpatrick may have the most success in placing cars in the county.

Usefulness of the King Drag Shown.

The dashing, washing rain last Thursday demonstrated most forcibly the splendid work done on the highways where the King drag has been used intelligently. The road surface was soon in fine condition for travel, there were no mud holes or washed places, and everyone who traveled these sections was impressed favorably. New determination to use these drags was aroused, and other sections will take up the work.

Domestic Science Class Organized.

Miss Pauline Saunders, of Corinth, Miss., will arrive this morning and tomorrow afternoon, at the home of Mrs. J. L. Rogers, will give an exhibition and talk on domestic science, which she will teach a class here. Everyone is invited to be present. Miss Saunders comes highly recommended, and a large class has been organized.

200 Cartoons Tell More Than 200 Columns

The World's Best Each Month Cartoons from dailies and weeklies published in this country, London, Dublin, Paris, Berlin, Hamburg, Vienna, Warsaw, Budapest, St. Petersburg, Amsterdam, Zurich, Bern, Rome, Lisbon, Zurich, Tokyo, Shanghai, Sydney, Canada, and South America, and all the great cities of the world. Only the 200 best out of 2,000 cartoons each month are selected.

"Pittsburgh Perfect" Fence

Why the Electric Weld is the Most Effective Fence-Joint made

Electrically welding joints eliminates innumerable exposed wire ends, and does away with sharply and tightly bending one wire against another, which cracks the galvanizing. The Electric Weld makes every ounce of wire count for strength and durability—no wasted wire, no useless weight dragging down

the fence. Electricity is the only medium which truly amalgamates metals—makes two wires one. As we use it, the galvanizing is piled around the joints, producing a one-piece fabric with absolutely dependable joints. Electrically Welded fence-joints (patented) are used only in "Pittsburgh Perfect."

Made in Different Styles for FIELD, FARM, RANCH, LAWN, CHICKEN, POULTRY and RABBIT YARD and GARDEN

Every Rod Guaranteed

Ask your dealer for "Pittsburgh Perfect" and insist on his furnishing it. Do not allow him to persuade you that some other fence is just as good. If he doesn't sell it, write us direct.

"Pittsburgh Perfect" Brands of Barbed Wire: Bright, Annealed & Galvanized Wire; Twisted Cable Wire; Hard Spring Coil Wire; Fence Staples; Poultry Netting; Staples; Regular Wire Nails; Galvanized Wire Nails; Large Head Roofing Nails; Single Loop Bale Ties; "Pittsburgh Perfect" Fencing; All made of Open Hearth material.

If you are interested in Wire Fencing, write for FREE copy of our ALMANAC, 1913.

Pittsburgh Steel Co.
Pittsburgh, Pennsylvania

Special Easter services will be held here Sunday.

St. Patrick's day was observed in appropriate exercises at the High School Monday morning. There were quite a number of guests who enjoyed the program very highly.

Miss Lena Arnold asks the patronage of the public, and guarantees that satisfactory work will be done in her clothes cleaning, pressing and repairing shop.

What Are You Going To Do This Year

by way of making your business successful and your domestic life full of pleasure, if you are not supplied with telephone service of the Cumberland Telephone & Telegraph Company? Everyone should have a telephone. You are connected with all outside important points in local connections with all residences and business houses. For any information call manager,

Cumberland Telephone & Telegraph Co. Incorporated.

A Square Deal

Works both ways: it benefits the buyer as well as the seller. We are firm believers in the Square Deal—as much for our own benefit as for yours—for we know if you get the Square deal habit you will buy from a Square Deal house. We give a square deal always—and we are as glad to give it as you are to get it.

Very Serious

It is a very serious matter to ask for one medicine and have the wrong one given you. For this reason we urge you in buying to be careful to get the genuine—

THE FORD'S BLACK-DRAUGHT Liver Medicine

The reputation of this old, reliable medicine, for constipation, indigestion and liver trouble, is firmly established. It is better than others, or it would not be the favorite liver powder, with a larger sale than all others combined.

R. MARTIN & CO.

YEAR BOOK of Stark Bro's Nurseries & Orchards Co. MAILED TO YOU FREE

Just say on a Postal Card: "Send me a copy of Stark Year Book for 1913." When writing, also tell us how many trees, shrubs, vines, etc., you will probably plant this season.

This Year Book is more than a mere catalogue of Stark nursery products, it is a practical, easy to understand text book for the guidance of the man who plants trees. Our own experience of nearly 100 years, the reports of experiment stations and the opinions of planters from all sections are condensed and reproduced for the benefit of busy people. An encyclopedia of orchard information, containing full size color illustrations of gloriously tinted fruits and many photographic reproductions in black and white also information on many subjects in which the orchardist is interested.

Hundreds of varieties of apples, pears, peach, plum, cherry, apricot, quince, grape and all small fruits are described; weaknesses of each variety are pointed out and good points are explained. We feel that planters should know both.

Those interested in growing fruits or flowers or shrubs or shade trees will find this book of inestimable value; totally different from the average nurseryman's publications. It is a book you will keep for reference, and one on which you can depend as being absolutely accurate. Write today for your copy.

A FEW LITTLE SMILES

A Luckless Man.
"What's the trouble?"
"I've just received a fine offer to go south. I have a chance to locate in New Orleans and get a salary nearly twice as large as the one I'm getting here."
"That doesn't seem to me to be a thing that ought to make you look discouraged. I should think you'd be happy."
"No, I've got to decline it. My wife won't let me go without her, and she refuses to leave here just as the winter is coming on, because she has a fine new set of furs."

Getting Back.
The bald-headed barber: "I see premature baldness is due to some trouble with the teeth, according to a Paris physician."
The vindictive victim: "Well, I hope you'll be more careful when you are cutting my hair than you were when you were cutting your teeth."

The Reason.
"That young couple are not in particularly good odor with the rich set, are they?"
"How could they be in good odor when their is a countless marriage?"
A Regular Cut-Up.
Mrs. Clancy—The dandified would loight his polpe wid a stick av dynamite and—
Mrs. Hogan—It was jest lolkie Tim! What'll he be deing' next?—Puck.

A Nightmare.
"I had a terrible dream last night."
"What was it?"
"I dreamed that I was the father of a girl who was dancing bare-legged in a musical show for \$125 a week."

TRUE TO HER WORD.

"Didn't Daisy tell you she was going to treat Jack real mean when he called?"
"Yes."
"Well, she sang for him all evening."
"My, oh, my! He didn't deserve that brutality."

Remember Him.
We can't but think
Now and again
Of the eclipse of
Sun Yat Sen.

His Experience.
"A prison warden must be used to pain."
"How so?"
"Isn't he always having felons on his hands?"

Embonpoint.
"What's become of that stunning Pileer girl, who used to be so proud of her figure? Has she gone away?"
"No. She's still here, but her figure's gone."

Been There.
Club Friend—Let's go to the grill room.
Trust Magnate—No, thanks; I've just come from the grand jury's headquarters.

As if She Could.
Hub—Oh, quit your everlasting worrying.
Wife—I'll worry if I want to.
Hub—Well, then, stop worrying out loud.

Beats Dancing.
Fan—Why don't you dance more?
Tan—Well, I've had five proposals already this season while sitting out dances in the conservatory—Judge.

Slight Misunderstanding.
"I see they have fixed the Panama races."
"It doesn't affect me. I bought my hat last summer."

Lost Hope.
"Why don't you go to a dentist?"
"What for?"
"It's the only way I see of taking your nerve."

"The Liver Pills act So Naturally and Easily."

Such a statement, coming from the cashier of a bank, shows what confidence responsible people have in these pills. Mr. A. L. Wilson after trying them wrote:

"I have used Dr. Miles' Nerve and Liver Pills and also your Anti-Pain Pills, on myself, with good results. The Liver Pills act so naturally and so easily that I scarcely know that I have taken a pill. Frequently being troubled with headache I take an Anti-Pain Pill and get immediate relief in every case."
A. L. Wilson, Sparta, Ill.
Mr. Wilson was for a number of years cashier of the First National Bank of Sparta.

Dr. Miles' Nerve and Liver Pills

are different from others. Many kinds of liver pills are "impossible" after one trial on account of their harshness. Dr. Miles' Nerve and Liver Pills do not act by sheer force but in an easy, natural way, without griping or undue irritation. They are not habit forming.

If the first bottle fails to benefit, your druggist will return the price. Ask him. MILES MEDICAL CO., Elkhart, Ind.

Indigestion

Stomach trouble is but a symptom of, and not itself a true disease. We think of dyspepsia, heartburn, and indigestion as real diseases, yet they are symptoms only of a certain specific nervous condition of the stomach.
